SCHEDULING INFORMATION (SEE PAGE 3 FOR CONFIRMATION INFORMATION)

Date Scheduled: ____________________________

Name of Scheduler: __________________________

Date of Exam: ______________________________

Time of Exam: ______________________________

Test Site Location: ___________________________
PURPOSE

The California Supplemental Examination (CSE) Handbook serves as a candidate’s notice of eligibility for the CSE and is designed to provide a candidate with important information regarding examination procedures, processes, and content. The CSE is the final requirement for obtaining an architectural license in California.

The California Architects Board (Board) strongly recommends that candidates thoroughly review the CSE Handbook, the CSE Test Plan, and the recommended CSE Reference Materials (available at www.cab.ca.gov) to prepare for the examination. The CSE Handbook describes in detail what to expect upon arrival at the examination site. It also provides other recommendations on how to prepare for the examination, information on the format of the examination, the CSE Test Plan content, and information on receiving examination results.

OBJECTIVE OF THE CALIFORNIA ARCHITECTS BOARD

The Board is mandated to protect the public health, safety, and welfare. The CSE assesses whether candidates for licensure demonstrate minimum standards of competency necessary to meet the requirements of current architectural practice in California.

As in other states with unique needs and regulatory requirements, California requires a supplemental examination in addition to the Architect Registration Examination (ARE). The CSE ensures that candidates are able to demonstrate that they have the necessary architectural knowledge and skills to respond to the unique conditions present in California.

The setting for architectural practice in California is distinct from that of other states in terms of the breadth, magnitude, and complexity of the individual circumstances that create its context. California’s large physical size, large and diverse population, varied landscape and climate, high seismicity, regulations and entitlements, and massive economy create an unusually demanding context for architectural practice. Additionally, the varying interplay of these conditions for specific projects gives rise to even more complicated settings for the conduct of architectural practice in the state.

Please use the CSE Handbook as a study guide, as well as a resource to understand the administrative procedures and processes for the CSE. Candidates, who have questions, may refer to the contact information available in this handbook.

EXAMINATIONS BY PSI

The Board, through the California Department of Consumer Affairs, has contracted with PSI to administer the CSE. PSI provides examinations through a network of 17 computer examination sites in California and 22 additional nationwide sites.

All questions regarding the scheduling and administration of examinations should be directed to PSI.

PSI licensure: certification

SPECIAL ACCOMMODATIONS AVAILABLE

All examination sites are physically accessible to individuals with disabilities. Scheduling services are also available via our Telecommunications Device for the Deaf (TDD) by calling (800) 735-2929.

The Board and PSI recognize their responsibilities under the Federal Americans with Disabilities Act and the California Fair Employment and Housing Act by providing testing accommodations or auxiliary aids or services for candidates who substantiate the need due to a physical or mental disability or qualified medical condition.

Accommodations will not be provided at the examination site unless prior approval by the Board has been granted. Reasonable, appropriate, and effective accommodations may be requested by submitting a Reasonable Accommodation Request for CSE form to the Board. This form is available at www.cab.ca.gov.

Requests for accommodation must be received a minimum of 90 days prior to the desired test date to allow for processing. Accommodations that fundamentally alter the measurement of the skills or knowledge the examination is intended to test will not be granted.

Do not schedule an examination with PSI until written notification has been received from the Board regarding a request for accommodation.

EXAMINATION SCHEDULING PROCEDURES

Once a candidate has established eligibility for the CSE by the Board, the candidate becomes responsible for contacting PSI to schedule an appointment to take the examination. A candidate may do so via the Internet at www.psiexams.com or over the telephone at (877) 392-6422.

Current policy allows one test attempt per application. If a candidate does not pass the examination, the candidate must reapply to the Board.

The PSI examination sites are open for testing during normal working hours of 8:00 a.m. to 5:00 p.m. Monday through
Friday, and operating hours on Saturday, except for the following major holidays:

INTERNET SCHEDULING

A candidate may schedule an examination by completing the online Test Registration Form available at www.psiexams.com. Please note that PSI’s website works best with Internet Explorer; other Internet browsers are not supported at this time. Scheduling an examination may be made via the Internet 24 hours a day.

1. Complete the registration form online and submit to PSI via the Internet.
2. Upon completion of the online form, a candidate will be given the available dates for scheduling an examination.
3. A candidate will need to choose a date in order to complete their registration.
4. Upon successful registration, a candidate will receive a traceable confirmation number.

TELEPHONE SCHEDULING

PSI has two scheduling methods available if a candidate wishes to schedule by telephone. First, call PSI at (877) 392-6422, 24 hours a day and schedule using the Automated Registration System. Second, if a candidate wishes to contact a live operator, use this same telephone number to contact PSI registrars Monday through Friday between 4:30 a.m. and 7:00 p.m. and Saturday, between 8:00 a.m. and 2:00 p.m., Pacific Time, to schedule examination appointment. Scheduling services are also available via a PSI Telecommunications Device for the Deaf (TDD) by calling (800) 735-2929.

CANCELING AN EXAMINATION APPOINTMENT

A candidate may cancel and reschedule an examination appointment without forfeiting the fee IF A CANCELLATION NOTICE IS RECEIVED TWO (2) DAYS PRIOR TO THE SCHEDULED EXAMINATION DATE. For example, for a 9:00 a.m. Monday appointment, the cancellation notice would need to be received before 9:00 a.m. on the previous Saturday. A candidate may call PSI at (877) 392-6422. Please note that a candidate may also use the automated system, using a touch-tone phone, 24 hours a day in order to cancel and reschedule an appointment.

Note: A voice mail message is not an acceptable form of cancellation. Please use the PSI website, automated telephone system, or call PSI and speak to a Customer Service Representative.

MISSED APPOINTMENT OR LATE CANCELLATION

A candidate who misses their appointment will not be able to take the examination as scheduled. Further, the examination fee is forfeited if a candidate:

- Does not cancel their appointment two (2) days before the scheduled examination date;
- Does not appear for their examination appointment;
- Arrives after their examination start time; or
- Does not present proper identification to the proctor at the exam site (see page 7).

RE-EXAMINATION

A candidate who fails the CSE may not retake the examination for at least 180 days from the date he or she took the examination they failed. See Examination Results section for additional information regarding re-examination.

EXAMINATION SITE CLOSING FOR AN EMERGENCY

In the event that severe weather or another emergency forces the closure of an examination site on a scheduled examination date, the examination will be rescheduled. PSI personnel will attempt to contact candidates in this situation. However, candidates may check the status of an examination appointment by calling (877) 392-6422. Every effort will be made to reschedule a candidate’s examination at a convenient time as soon as possible. Candidates will not be penalized. They will be rescheduled at no additional charge.

CONFIRMATION OF EXAMINATION APPOINTMENT

The Board recommends that candidates confirm their examination appointment with PSI prior to traveling to an examination site. An examination appointment can be confirmed by calling (877) 392-6422.

CALIFORNIA EXAMINATION SITE LOCATIONS

The CSE is administered at the following PSI examination sites in California:

ANAHEIM
2301 W LINCOLN AVE, SUITE 252
ANAHEIM, CA 92801
(714) 254-1453

WEST DES MOINES, IA 50265
FROM I-235, EXIT 8TH ST/73RD ST AND PROCEED SOUTH. TURN RIGHT ON OFFICE PARK ROAD. TURN RIGHT INTO THE DRIVEWAY.
To prepare for the CSE, the Board recommends the following:

- **Thoroughly read the CSE Handbook.** In addition to the CSE Test Plan, the CSE Handbook contains valuable information on examination procedures; administrative processes; etc. Candidates should take time to read all available material and contact the Board well in advance of the examination appointment if they have questions.

- **Study the CSE Test Plan.** The CSE Test Plan was used by the Board to develop the examination questions. No questions will be asked that are not based upon the material found in the CSE Test Plan. Candidates may find it helpful to compare their experience and knowledge with each area of the CSE Test Plan.

- **Use the CSE Reference Materials.** The Board provides a list of reference materials on its website at www.cab.ca.gov. It is strongly recommended that candidates thoroughly review these materials and check the Board’s website periodically, as the materials list may be updated when necessary.

- **Engage in self-directed study.** For areas of the CSE Test Plan for which candidates may have limited knowledge or experience, they should engage in self-directed study (e.g., Intern Development Program training areas, continuing education, The American Institute of Architects Handbook of Professional Practice, Emerging Professional’s Companion, etc.).

- **Examination Seminars or Study Guides.** The CSE Handbook is the only official examination preparation publication for the CSE. The Board does not contribute to nor endorse any other examination seminars or study guides for the CSE. The Board’s Subject Matter Experts (SMEs) may not contribute to or participate in any examination seminars or study guides. In addition, individuals and organizations that offer examination seminars or study guides are not given any information beyond what is available or referenced on the Board’s website or in the CSE Handbook.

Per Civil Code section 1798.61(b), individuals and organizations that provide educational information regarding examinations are provided with a list of the Board’s candidates’ names and addresses upon request (unless a candidate indicates on the examination application that he or she wishes to not have this information shared).

### REPORTING TO THE EXAMINATION SITE

On the day of the examination, candidates must arrive at least 30 minutes prior to a scheduled appointment time. This allows time for check-in and identification verification and provides time for the candidates to familiarize themselves with the examination process. Candidates who arrive late may not be admitted to the examination site, and they may forfeit the examination registration fee. Even though candidates will be thumb printed, they are still required to comply with any identification requirements established by the Board.

### REQUIRED IDENTIFICATION AT THE EXAMINATION SITE

A candidate must provide one of the following valid and current forms of government issued identification in order to test:

- Driver’s License with photograph (any state)
- State issued identification card (any state)
- U.S. military issued identification card
- U.S. issued passport

All identification photographs must be recognizable as the person to whom the identification card was issued. Also, the name on a candidate’s identification card must match the name on their application submitted to the Board. If a candidate has recently changed their name with the Board, he or she may want to contact PSI to verify that PSI has the correct name on file.

If a candidate cannot provide the required identification, the candidate must call (877) 392-6422 at least three (3) weeks prior to their scheduled appointment to arrange a way to meet this security requirement. Failure to provide the required identification at the time of the examination without notifying PSI, is considered a missed appointment, and a candidate will not be able to take the examination.

### CALIFORNIA LAW SECURITY PROCEDURES

California Business and Professions Code section 123 states: It is a misdemeanor for any person to engage in any conduct which subverts or attempts to subvert any licensing examination or the administration of an examination, including, but not limited to:

- Conduct which violates the security of the examination materials;
- Removing from the examination room any examination materials without authorization;
- The unauthorized reproduction by any means of any portion of the actual licensing examination;
- Aiding by any means the unauthorized reproduction of any portion of the actual licensing examination;
- Paying or using professional or paid examination-takers for the purpose of reconstructing any portion of the licensing examination;
• Obtaining examination questions or other examination material, except by specific authorization either before, during, or after an examination;
• Using or purporting to use any examination questions or materials which were improperly removed or taken from any examination for the purpose of instructing or preparing any applicant for examination;
• Selling, distributing, buying, receiving, or having unauthorized possession of any portion of a future, current, or previously administered licensing examination;
• Communicating with any other examinee during the administration of a licensing examination;
• Copying answers from another examinee or permitting one’s answers to be copied by another examinee;
• Having in one’s possession during the administration of the licensing examination any books, equipment, notes, written or printed materials, or data of any kind, other than the examination materials distributed, or otherwise authorized to be in one’s possession during the examination; or
• Impersonating any examinee or having an impersonator take the licensing examination on one’s behalf.

Nothing in section 123 precludes prosecution under authority provided for in any other provision of law. In addition to any other penalties, a person found guilty of violating section 123, is liable for the actual damages sustained by the agency administering the examination not to exceed $10,000 and the costs of litigation.

Additionally, section 496 states: A board may deny, suspend, revoke, or otherwise restrict a license on the ground that an applicant or licensee has violated section 123 pertaining to subversion of licensing examinations.

**PSI SECURITY PROCEDURES**

No guests, visitors or family members are allowed in the testing or reception areas. Failure to follow these procedures may result in disqualification of the candidate’s examination.

*Note: Each candidate will be provided with notepaper and a pencil at the test site so that notes can be taken during the examination. This notepaper will be retrieved by the proctor after the examination.*

**IMPORTANT INFORMATION ABOUT TAKING AN EXAMINATION**

1. All candidates will have their thumbprint taken during examination check-in and re-entry into the examination room after an approved absence. If a candidate passes the examination, the thumbprint record will be destroyed. If a candidate abandons his or her application for licensure, as determined by the appropriate regulatory authority, the thumbprint will also be destroyed. If a candidate is unsuccessful, the thumbprint record will be retained by PSI to ensure proper identification on any subsequent examination attempts. If the thumbprint doesn’t match upon exit and re-entry, the candidate shall be disqualified from the examination, his or her test results invalidated, and the appropriate regulatory entity will be notified of the occurrence. The taking of the thumbprint is an additional measure to enhance examination security. The Department’s Office of Professional Examination Services (OPES) shall ensure that the appropriate safeguards for the storage and destruction of the thumbprint records are in place.

2. The temperature in the examination room is maintained at a moderate level. Candidates are advised to layer clothing. Acceptable layered clothing includes lightweight shirts, sweaters, and pullovers without pockets. These items must be worn upon check-in, while candidates wait to enter the examination room, and during the initial seating for the examination.

3. There are timing mechanisms available at the test site and on the computer console to help candidates keep track of time during the test administration. Watches or other timekeeping devices are not permitted in the examination rooms.

4. Only one candidate will be allowed to take a restroom break at a time. Candidates are required to sign out when they leave the room and when they return. If a candidate’s restroom break takes longer than five (5) minutes, a proctor will check on the candidate and will notify the applicable regulatory entity of the occurrence, which will take appropriate action.

5. The following items are not permitted in the examination rooms:
   - Cellular telephones, personal digital assistants (PDAs), recording devices, cameras, pagers, purses, notebooks, notebook computers, reference or reading materials, music players, radios, electronic games, calculators, or briefcases.
   - Personal items, including watches, backpacks, wallets, pens, pencils or other writing devices, food, drinks (unless prior approval is obtained by the Board), or good-luck items.
   - Hats, baseball caps, or visors (with the exception of religious apparel), coats, shawls, hooded clothing, heavy jackets, or overcoats

   During the check-in process, all candidates will be asked if they possess any of the prohibited items and all candidates will be asked to empty their pockets. If prohibited items are found during check-in, candidates shall return these items to their vehicle or other place of safekeeping. Neither PSI, nor the Department of Consumer Affairs, shall be responsible for the items. Any candidate possessing the prohibited items in the examination room shall have his or her test results invalidated, and PSI shall notify the appropriate regulatory entity of the occurrence.

6. Copying or communicating examination content is a violation of PSI security policy and existing law. Either one shall result in the disqualification or invalidation of examination results, the denial of a candidate’s license, and may subject the candidate to criminal prosecution.

7. If a candidate is asked by a proctor to step into the lobby during an examination, the proctor will suspend the candidate’s examination, and the candidate will not lose any remaining time.
**TAKING THE EXAMINATION BY COMPUTER**

Taking the PSI examination by computer is simple. Candidates do not need any computer experience or typing skills. Candidates will use fewer keys than they use on a touch-tone telephone. All response keys are colored and have prominent characters. An illustration of the special keyboard is shown here.

**IDENTIFICATION SCREEN**

Candidates will be directed to a semiprivate testing station to take the examination. When seated at the testing station, candidates will be prompted to confirm personal information such as: name, identification number, and the examination for which they are registered.

**TUTORIAL**

Before a candidate starts their examination, an introductory tutorial to the computer and keyboard is provided on the computer screen. The time spent on this tutorial, up to 15 minutes, DOES NOT count as part of the examination time. Sample questions are included as part of the tutorial so that a candidate may practice using the keys, answering questions, and reviewing answers.

One question appears on the screen at a time. During the examination, minutes remaining will be displayed at the top of the screen and updated as a candidate records his or her answers.

**EXAMINATION QUESTION EXAMPLE**

During the examination, a candidate should press 1, 2, 3, or 4 to select their answer. To record an answer and move on to the next question, the candidate should press “ENTER” to record their answer. A sample question display follows:

**EXAMINATION ITEMS**

The CSE consists of multiple-choice items and may contain items for the purpose of pre-testing (non-scoreable items). Pre-testing allows performance data to be gathered and evaluated before the items are scoreable in a future examination. These pre-test items, distributed throughout the examination are not identified or used in calculating the examination score.

All of the scoreable items in the CSE have been written and reviewed by California-licensed architects, are based on the knowledge and ability statements contained in the CSE Test Plan, are written at a level to assess minimum standards of competency necessary for practice in California, are supported by reference materials, and have been pre-tested to ensure statistical performance standards are met.

There is only one correct answer for each item. The “incorrect” answers are typically common errors and misconceptions, true but not relevant statements, or incorrect statements. There are no “trick” questions in the examination. Scores on the examination are based on the number of correct answers. It is to the candidate’s advantage to answer every question.

Candidates will have approximately 3.5 hours to take this examination. The CSE consists of individually timed sections that may include general multiple-choice items and project scenario related items pertaining to the content within the CSE Test Plan and applicable knowledge and ability statements. Each section of the exam will have a designated time limit displayed on the computer monitor. If a section is completed before the designated time has expired, the remaining time may not be carried over to another section. Once a section is complete, a candidate must proceed forward to the next section of the examination and may not go back or review answers from a prior completed section.

The project scenario questions pertain to hypothetical project(s) (i.e., small- or moderate-scale or a portion of a larger project) and related documents. The exam proctor will provide the candidate with a handout at check-in, which may include: a) written information, such as the project program, site description, and architect and client profiles; b) graphics, such as a site plan, floor plan, elevations, sections, and/or details; and c) other project-related information, such as a letter from the client, a transmittal from the contractor, a memo from the planning department, etc. for each project. The project name(s) on the cover of the handout should match the project name on the computer screen for the Project.
Scenario items. The handout must be returned to the proctor upon completion of the project scenario items of the exam.

A candidate who needs to take a restroom break during the examination will not receive additional time to complete the examination.

Examination results will be given to a candidate at the examination site after completing the examination.

Candidates who pass the CSE are provided with a passing score letter and an Application for Licensure. If you fail the CSE, you will be provided with Candidates who are unsuccessful receive a score report and a new CSE application. If a candidate does not receive their results after completing the examination, the candidate should contact the Board’s office immediately.

Submittal of a new application and payment to the Board is required in order to retake the CSE; however, a candidate cannot schedule or retake the examination for at least 180 days from the date he or she took the examination. If the new application and payment are received by the Board within the 180-day wait time, a new notice of eligibility (CSE Handbook) will be sent to the candidate (from PSI) near the end of that waiting period. If the application and payment are received any time after that waiting period, they will be processed within normal processing times by the Board, PSI will be notified of the candidate’s renewed eligibility, and a new notice of eligibility will be sent to the candidate (from PSI).

Pursuant to California Code of Regulations section 124.5, a candidate who failed the CSE and feels he or she was significantly disadvantaged due to a significant procedural error or adverse environmental conditions during the examination may write to the Board within 30 days from receipt of the results to request a review of his or her examination. The Board may take such action as it deems appropriate; however, in no instance would the result of the review be the reversal of a failing score to a passing score.

PSI, in cooperation with the Board, will be continually evaluating the examinations being administered to ensure that they accurately measure competency in the required knowledge areas. Comments may be entered on the computer keyboard during the examination. Candidate comments regarding the questions and the examinations are welcomed. Comments will be analyzed by PSI examination development staff. Although PSI does not respond to individuals regarding these comments, all substantive comments are reviewed. If a discrepancy is found during the comment review, PSI and the department may re-evaluate candidates’ results and adjust them accordingly.

Candidates are eligible to apply for licensure as an architect in California after passing the CSE. To apply, candidates must submit an Application for Licensure and the required fee to the Board. An Application for Licensure is only provided to a candidate when he or she passes the CSE. Allow 30 days for processing of an Application for Licensure and fee and approximately six to eight weeks for issuance of the license.

The CSE Test Plan is based on the results of a 2007 statewide survey of practicing California licensed architects. The Occupational Analysis Survey addressed the full scope of architectural practice. Survey respondents rated architectural task statements and knowledge, skill, and ability statements on five-point scales of importance.

The survey results were used by a panel of California architects to determine the content that needs to be assessed on the CSE to reflect current architectural practice in the state. The Board’s goal is to focus on California-specific aspects of practice and to avoid duplicating coverage of general areas of practice already addressed by the national test, the ARE.

To develop the CSE Test Plan from the survey, the panel deleted knowledge areas that were rated of low importance. The panel also reviewed the test specifications for the ARE 4.0 and deleted knowledge areas that were considered adequately addressed in the ARE. The panel deleted a total of 57 knowledge statements from the survey, reducing the number to be included on the CSE Test Plan to 55. The CSE Test Plan is therefore neither comprehensive nor representative of the full scope of architectural practice.

The CSE Test Plan is the basis for the examination development and should be used as a guide to prepare for the CSE. The CSE Test Plan consists of four knowledge categories related to the tasks that California architects perform. Each category of the CSE Test Plan includes a definition and a list of knowledge or ability statements. The questions asked from a category will cover a sample of the knowledge or ability statements in that category. Therefore, while not every statement will be addressed by every form of the examination, candidates should be prepared to respond to questions dealing with any of the CSE Test Plan Knowledge and Ability Statements. The candidate’s knowledge will be measured in the context of tasks architects perform.

All questions in the CSE address one of the four knowledge categories of the CSE Test Plan, shown below. The CSE Test Plan “Weights” indicate the percentage of examination points that will be allocated to each category. The percentages were determined by the CSE Test Plan panel using the ratings obtained by respondents to the Occupational Analysis Survey.

The CSE is developed and maintained by OPES, a division of the Department of Consumer Affairs. OPES staff consists of test validation and development specialists trained to develop and analyze occupational licensing examinations.

Architects who participate in examination development and review workshops are referred to as Subject Matter Experts (SMEs). SMEs write and review multiple-choice items for the examination. SMEs are trained by OPES staff in established examination development processes and measurement methodologies. The cooperative efforts among these members of the architectural profession, the OPES and the Board are necessary to achieve both the measurement and content standards for examination construction.
ESTABLISHING THE PASSING STANDARDS

The CSE measures knowledge and skills required for architectural practice in California, and represents a standard of performance that architect SMEs agree is the minimum acceptable level for licensing in the profession.

To establish pass/fail standards for the CSE, a criterion-referenced passing score methodology is used. The intent of this methodology is to differentiate between a qualified and unqualified licensure candidate. The passing score is based on minimum competence criterion that are defined in terms of the actual behaviors that qualified architects would perform if they possessed the knowledge necessary to perform job activities.

During a criterion-referenced passing score procedure, a panel of architect SMEs also consider other factors that would contribute to minimum acceptable competence, such as prerequisite qualifications (e.g., education, training and experience); the difficulty of the issues addressed in each multiple-choice item; and public health and safety issues. By adopting a criterion-referenced passing score, the Board applies the same minimum competence standards to all licensure candidates.

CSE TEST PLAN CONTENT

Categories and Subcategories                      | Weights* |
---                                               | ---      |
I.  Context and Predesign                        | 16%      |
II. Regulatory                                    | 42%      |
   A. California State Laws, Code, Regulations, and Standards (24%) |          |
   B. Other Laws, Codes, Regulations, Standards, Agencies and Entitlements (18%) |          |
III. Management and Design                       | 27%      |
IV.  Construction                                | 15%      |
                                             | 100%     |
*The percentage of exam content listed above is approximate.

Each category includes a definition and a list of knowledge or ability statements. The questions asked from a category will cover a sample of the knowledge or ability statements in that category. Therefore, while not every statement will be addressed by every form of the examination, candidates should be prepared to respond to questions dealing with any of the CSE Test Plan Knowledge and Ability Statements. The candidate’s knowledge will be measured in the context of tasks architects perform.

I. CONTEXT AND PREDESIGN (16%)

This category encompasses the knowledge required to evaluate and respond to the physical and social context in California. This requires an understanding of natural and built conditions and their impact on design, including potential mitigations. Additional knowledge and abilities are those required to develop and utilize program information that addresses user characteristics and activities and performance objectives.

Knowledge and Ability Statements

1. Knowledge of conditions of the natural environment regulated in California (e.g., wetlands, coastal regions, habitats of endangered species) as they relate to design and construction.

2. Knowledge of natural and human-caused hazardous conditions (e.g., seismic activity, fire, winds, flood zone, hazardous materials) and potential mitigations.

3. Knowledge of health issues related to buildings (e.g., offgassing, mold, adequate ventilation).

4. Knowledge of user characteristics (e.g., varying ages, cultures, abilities, activity requirements).

5. Knowledge of types of stakeholders (e.g., environmental groups, citizens’ advisory committees, neighborhood and community organizations) concerned about design and construction.

6. Knowledge of project performance objectives (e.g., comfort control, safety and security, sustainability).

7. Ability to evaluate user activities to determine spatial requirements and adjacencies.

8. Ability to organize and evaluate relevant program information to prepare a final program document.

II. REGULATORY (42%)

This category includes knowledge of the state, local, regional, and federal regulatory environments specific to the practice of architecture in California, and includes knowledge of agencies and entitlement processes.

A. California State Laws, Codes, Regulations, and Standards (24%) This subcategory encompasses the knowledge required to practice within the regulatory environment specific to California. This requires an understanding of the California-specific legal constraints upon design and construction, including a working knowledge of California building codes, environmental regulations, and lien laws. This also requires understanding of the requirements of the California Architects Practice Act, including but not limited to those regarding contracts, responsible control, standard of care, licensing, and instruments of service.

Knowledge Statements

9. Knowledge of California Environmental Quality Act (CEQA) as it relates to design and construction.

11. Knowledge of what is encompassed by the California Building Standards Code (e.g., Building, Electrical, Mechanical, Plumbing, Energy, Historical) and how the CBSC is distinct from the model codes.

17. Knowledge of California Health and Safety Code as it relates to design and construction.
19. Knowledge of other California special regulations relevant to design and construction (e.g., water regulations, California Coastal Act, California Clean Air Act, California Public Contract Code, Field Act, Hospital Facilities Seismic Safety Act).
20. Knowledge of the architect’s responsibilities and requirements for practicing in California in accordance with the Practice Act (e.g., responsible control, standard of care, licensing requirements, signing and sealing of documents).
22. Knowledge of administration of the Practice Act (e.g., examination, licensing, and enforcement).
23. Knowledge of business and professional requirements of the Practice Act (e.g., architectural corporations, firm naming, associations, professional conduct).

II. REGULATORY (42%) - Continued

B. Other Laws, Codes, Regulations, Standards, Agencies and Entitlements (18%) This subcategory encompasses the knowledge required to practice within the local, regional, and federal regulatory environments in California. This requires an understanding of the legal constraints upon design and construction, including a working knowledge of how General Plans inform planning and zoning issues and how the Americans with Disabilities Act may impact architectural practice. This subcategory also encompasses the knowledge required to interact with local, regional, and state governing agencies that may have jurisdiction. This requires an understanding of the jurisdictions, procedures, and approval processes of the agencies, as well as an awareness of the architect’s responsibilities in obtaining approvals.

Knowledge Statements
24. Knowledge of local or regional laws, codes, regulations, and standards (e.g., General Plan; planning and zoning ordinances; local building ordinances; design guidelines; Codes, Covenants, and Restrictions [CC&Rs]) relevant to design and construction.
25. Knowledge of the Americans with Disabilities Act (ADA) with regard to how it impacts architectural practice (e.g., client and architect responsibilities, design and construction).

26. Knowledge of federal laws, codes, and regulations other than ADA (e.g., Environmental Protection Agency Regulations, Federal Aviation Administration regulations, U.S. Army Corps of Engineers regulations) relevant to design and construction.
27. Knowledge of national standards (e.g., UL, ANSI, ASTM, Factory Mutual) relevant to design and construction.
28. Knowledge of local community development agencies and other authorities that normally have jurisdiction over design and construction (e.g., building, planning, public works, police and fire departments).
29. Knowledge of local or regional agencies and other authorities that may have jurisdiction over design and construction (e.g., Design Review Boards, Air Quality Management District, County Flood Control District, airport authorities, Environmental Health Department).
30. Knowledge of California state agencies that have jurisdiction over design and construction (e.g., Coastal Commission, Water Resources Control Board, Department of Fish and Wildlife, Air Resources Board, California Department of Transportation).
31. Knowledge of procedures for obtaining approvals from regulatory agencies.
32. Knowledge of interrelationships among various regulatory agencies (e.g., sequence of approvals, hierarchy of jurisdictions).
33. Knowledge of process for resolving conflicts between agencies or between codes, regulations, and standards.

III. MANAGEMENT AND DESIGN (27%)

This category encompasses the knowledge required to plan and manage project teams, including consultants, and to implement procedures for risk management and quality assurance. This requires an understanding of the architect’s role and responsibilities for coordinating project teams, an understanding of consultants’ services as they relate to systems and building design, obtaining agency approvals, and an understanding of how to limit professional liability exposure. This category also encompasses the knowledge and abilities required to develop design solutions and prepare design and construction drawings and documents. This requires an understanding of methods for developing design solutions collaboratively with clients, users, and stakeholders; an understanding of the drawings and documents needed for agency approvals; and an awareness of specific design concerns in California (e.g., nonstructural elements, special structural loading conditions, environmental control systems, material performance and testing standards). This category also encompasses knowledge of the bidding process.

Knowledge and Ability Statements
34. Knowledge of consultants’ (e.g., civil, structural, mechanical, electrical, landscaping, acoustical, traffic) services.
35. Knowledge of architect’s role and responsibilities in coordinating an entire project team.
36. Knowledge of architect’s role and responsibilities in managing project teams to obtain necessary agency approvals at the appropriate time.

38. Knowledge of how practicing within the standard of care limits professional liability exposure.

39. Knowledge of methods for developing design solutions with involvement of client, users, consultants, and stakeholders.

40. Knowledge of contents of design drawings and related documents required for agency approvals.

41. Knowledge of nonstructural elements as defined by the California Building Code (e.g., fixtures and equipment items, nonbearing partitions, suspended ceilings).

42. Ability to identify implications of special structural loading conditions (e.g., heavy equipment, snow, library shelving).

43. Knowledge of environmental control systems (e.g., energy management, occupant comfort and control).

44. Knowledge of material characteristics, performance, and testing standards.

45. Ability to prepare construction documents appropriate to project type.

46. Knowledge of construction bidding and negotiation processes.

47. Knowledge of interrelationships among owner, architect, and contractor during construction.

48. Knowledge of the limits of the architect’s role and responsibilities during construction (e.g., directing subcontractors, means and methods).

49. Knowledge of construction conflict resolution strategies (e.g., mediation, arbitration, litigation).

50. Knowledge of procedures for implementing changes during construction (e.g., directives, supplemental instructions, change orders).

51. Knowledge of procedures for monitoring construction costs and schedules (e.g., reviewing and certifying payments to contractor, reviewing lien releases).

52. Knowledge of procedures for performing project close-out (e.g., Certificate of Substantial Completion, Notice of Completion, final lien releases).

53. Knowledge of elements of California construction laws (e.g., lien requirements, minimum warranty periods).

54. Knowledge of code-required special inspections and testing (e.g., field welding, high strength concrete).

55. Ability to provide construction contract administration services appropriate to project type.

IV. CONSTRUCTION (15%)

This category encompasses the knowledge and abilities required to perform construction contract administration services. This requires an understanding of the architect’s role and responsibilities during construction, including knowledge of procedures for resolving conflicts, implementing changes, managing construction costs and schedules, and including California-specific special inspections and testing. Also requires knowledge of performing project close-out procedures, including understanding of lien laws.

Knowledge and Ability Statements

47. Knowledge of interrelationships among owner, architect, and contractor during construction.

48. Knowledge of the limits of the architect’s role and responsibilities during construction (e.g., directing subcontractors, means and methods).

49. Knowledge of construction conflict resolution strategies (e.g., mediation, arbitration, litigation).

50. Knowledge of procedures for implementing changes during construction (e.g., directives, supplemental instructions, change orders).

51. Knowledge of procedures for monitoring construction costs and schedules (e.g., reviewing and certifying payments to contractor, reviewing lien releases).
CALIFORNIA ARCHITECTS BOARD
NOTICE OF CSE ELIGIBILITY

Candidates receiving this handbook are eligible to participate in the California Supplemental Examination (CSE). This is the ONLY notice of eligibility a candidate will receive from the Board for this examination.

The CSE Handbook provides important information regarding CSE procedures, processes, and content. To schedule an examination, please refer to the instructions in this handbook.

Upon passing the CSE, a candidate is eligible to apply for an architect license in California. Information about applying for a license is included in this handbook.
